

GEMINI Waverider Series

Length	:	5.5m/18 ft		
Hull	:	Balsa Cored GRP (Light weight composite structure)		
Weight	:	300Kg	Eng. :	90Hp-140Hp
Capacity	:	12 persons (1,220Kg)	Fuel :	20 Gallons
Speed	:	53Knots	Range:	150Km-250Km
Hull	:	V / Deep V	Certified:	both CE & SOLAS

The Gemini Waverider 550 is a performance light-weight rigid inflatable boat that combines the versatility of a speed boat with the added safety of a RIB. The unique light weight construction provides speed and fuel efficiency that cannot be matched by other boats in its class, often with twice the horsepower. The high level of standard specification includes an elevated stainless steel tubular skibar, internally fitted fuel tank and tubes constructed of DuPont Hyperlon, renowned for long life. A proven offshore capability in the toughest of conditions, the Gemini Waverider 550 is the perfect family sport boat for Hong Kong.

The Waverider 550 can be registered in Hong Kong to carry up to 12 people.
(Similar sized speed-boats can carry only 5 to 6 people legally)

The Hong Kong Marine Department recognises that unlike most others, Gemini Waveriders comply with the SOLAS* regulations as Rescue/Safety Boats.
(Safety Of Life At Sea, an international shipping regulation)

The deep-V hull allows a comfortable ride through rough water, Allowing you to reach remote beaches normally only accessible to much larger craft.

Tai Long Wan (right) may see the occasional speedboat on the calmest days. Deep-V Waveriders can get there any day!

The lower hull includes 3 separate water tight compartments, making the boat completely unsinkable, even with all of the tubes deflated.

Waveriders are custom fitted to your requirements.

Straddle type console >

< Stand type console.

Regularly used by larger groups.

The stainless steel Ski bar keeps ropes clear of the prop when water-skiing.

WaveRider range, 5.5 – 3.8m

	WaveRider 550	WaveRider 505	WaveRider 470	WaveRider 380
